

# Good Drivers, Good Neighbours

## Kingshill Area Voluntary Parking/Driving Charter

The Kingshill Area Residents' Association has developed the guidelines below to encourage residents and visitors in our area to park more considerately wherever possible. We encourage all neighbours to sign up to these to make our area a better place to live:

- \* Verges - I will avoid parking on grass verges, pavements and kerbs in order to maintain pleasant green spaces and ease pedestrian access
- \* Junctions - I will avoid parking near junctions and bends so as to reduce the hazards this can cause to other vehicles and pedestrians
- \* Garages - Wherever possible, I will use my off-road parking to ease the pressure of on-street parking for those without off-road parking
- \* Vans - I will avoid parking any commercial vehicle outside the houses of other residents
- \* Residents Parking - I will try to park sensibly in order to maximize the available on-street parking
- \* 20 is Plenty - but I'll try not to drive more than 15 mph on side streets and no more than 30mph on Kingshill
- \* Junctions - I will stop to let people pull out of the streets on Kingshill when it is safe to do so
- \* Kingshill crossing - I will slow down to let people cross when safe

**I agree with the parking charter!**
