

# Swindon Strategic Partnership

## Swindon Forum—Today's Conference

Invitees to the twice yearly Conference include partners and stakeholders from Community groups, Coalitions, Voluntary and Community sector groups, Parish Councils, public and private partnership and groups

### Swindon's Communities

With the diverse interests of the many communities, urban and rural issues and new direction from government there is a clear need for both a contact point and a discussion process that ensures that these issues are given rigorous debate. The SSP-OMG is developing its role to support this to ensure fuller engagement enabling issues to be forwarded to the Partnership Board for their comment, or to be discussed at the next conference so providing a source of community aims for possible inclusion into the annual revised Community Strategy
