

**Swindon Strategic Partnership Conference
on 22nd November 2011 at STEAM Museum
9.30 am – 2.00 pm**

This is to your invitation to be part of the next Swindon Strategic Partnership Conference

The theme for this conference will be to develop 'Local Solutions to Local Issues'. We hope to achieve this through conversations where we can use our collective expertise and knowledge to resolve some stuck issues around One Swindon.

There will also be the opportunity on the day to:

- Hear from local experts around volunteering and what it means to their organisations;
- Talk to local businesses about how they are building links into our communities through community projects;
- Have the opportunity to meet people, share good practice and ideas and network

More information, including an agenda, will come to you during October, but in the meantime to ensure you are part of this conversation, please complete the attached booking form and return to jbeattie@swindon.gov.uk by 21st October 2011.
